LONELY HEARTS

MATURE RUSSIANS SEEK PARTNER

Vital statistics 71-47.00-25 rear / 48-25.00-20 front
 Current clothing Goodyear (tyres)
 Favourite film From Russia with Love.
 Favourite drinks Vodka and we also like water (ballast)
 Previous home North Yorkshire
 Previous partner Long affair with a Fendt, but I have also coupled up with John Deeres
 Personal condition Our rear is 80% good and we have 60% on show, up at the front
 Hobbies When not at the ballet, we love to work in the field. We are at our best outdoors.
 Tell us about yourself We are clean living but have been known to go down over the years. We seek genuine new partner to roll us around.

Price £1850 for the set.

SPECIAL OFFER

Stimulate your grass growth this month

Buy Browns Grass Master 5 or 6m, Hydraulic Folding, Spring Tined Grass Harrows

- Aerate the sward
- Encourage vigorous growth
- Help to prevent moss build up and thatch
- Break up and distribute manure and mole hills
- Mounted on Floating Subframes
- Different tine settings to vary angle attack of tines
- 8mm tines
- 25mm tine spacing
- Two height adjustable pneumatic tyres
- Heavy Duty Frame
- British Built

Don't delay, buy a Browns today, prices starting from £3,100 for a 5m set

NEWSLETTER

STUART'S NEWS

OPEN from 10am to 7.30pm, we are holding our one day Open Day on Wednesday, 14th April at Cornthwaite Agricultural. It will include the latest in John Deere equipment, plus machinery from all our major franchises, including: _

- Lemken
- Manitou
- Bailey Trailers
- Fleming
- KRM
- Walter Watson
- Gregoire Besson
- Strautmann
- Vaderstad
- Ritchie Agricultural
- McConnel
- Reco
- Fella
- Monosem

One day only used machinery offers

We always have good stock of used tractors and machinery and our current stock will be available for viewing on the day. In addition to this we will have special, one day only offers on a selection of used tractors and equipment with all of the following:

- 0% finance package
- Warranty package
- Free UK Mainland Delivery

The list of machinery available on special offer will be published on our websites.

The new workshop will be open for you to look around and we will have a static demonstration of a John Deere 5 Series Tractor with the bonnet up and a dyno on the back. We are offering a one day only 10% discount for Maintenance Contracts quoted for, agreed to and signed for on the day.

Our new showroom will be finished and fully stocked. There will be new 2010 John Deere merchandise and representatives for you to speak to from Buckler boots and Vapormatic.

To cater for our younger customers there will be a complimentary 'ride-on tractor' track. We will also have childrens competitions – all entries will be entered into a prize draw to win the pedal tractors used on the track during the day.

Complimentary hog roast and refreshments are provided throughout the day. Whether you're after parts, service, or a piece of new or used machinery, we can find a solution for you. It would be great to see you there!

APRIL DISCOUNT ON FILTERS

Clean air is essential to keep your engine running smoothly and efficiently. In fact, inadequate air filtration can cause more harm to your engine than poor lubricant filtration. Ineffective filtration can cause serious wear to the engine and its components...leading to low engine power, excessive fuel consumption and ultimately, expensive repairs.

You wouldn't neglect the engine, what about operator comfort?

Take advantage of this month's offer, good for your pocket, your engine and operator comfort.

Example used is a 6830 Premium Tractor

Discount options

Fuel, Engine oil, Hydraulic & Transmission filter = 10%

Fuel, Engine oil, Hydraulic & Transmission + Engine Air filters = 12.5%

Fuel, Engine oil, Hydraulic & Transmission + Engine Air + Cab filters = 15%

Part Number	Description	Qty	Price Each	Extended Price	Applicable Discount
RE522878	Fuel filter	1	£25.50	£25.50	10%
RE529643	Fuel filter	1	£22.50	£22.50	
RE504836	Engine oil filter	1	£14.50	£14.50	12.5%
AL156625	Transmission filter	1	£32.99	£32.99	
AL169573	Hydraulic filter	1	£52.00	£52.00	15%
AL150288	Engine air filter	1	£31.75	£31.75	
AL172781	Engine air filter	1	£68.00	£68.00	
AL177184	Cab fresh air filter	2	£29.25	£58.50	
L155288	Cab recirculation filter	2	£10.25	£20.50

LAWNCARE / STIHL

We are fully committed to meeting your lawncare needs and have available to you the technical knowledge and expertise of Barry Prohett who has 17 years of experience in the horticultural industry.

We cater for all types of work, from basic servicing to major repairs on any make or model and we have a collection and delivery service so no job is too small or large. Please contact our service team for our latest pre-season checkover and servicing prices.

ISLE OF MAN NEWS

This month we have started shipping new grass machinery ready for spring. If any customer would like to see the latest models of mounted or trailed mowers there is now a great selection available to view at our site at Squeen Farm.

Balers News

We have a large stock of new John Deere balers at great prices with very attractive 0% finance deals available.

This month will also see the arrival of several new round balers ready for the new season. The balers will be set off and installed by members of our After Sales Team. The team will be visiting the island to give customers, with new or used balers, help and tips on the operation and maintenance of them.

Baler Clinic IOM

We give our customers the opportunity to attend a free baler clinic which enables them to visit our sites and receive expert advice on maintenance and set up of their balers before the season starts. We often have great offers on service and parts which can be ordered and purchased at these events.

If any customers on the ISLE OF MAN would like to attend a baler clinic on the ISLAND please contact either DUSTY, EDDIE OR MATTY to arrange.

SERVICE

Fuel, Misfire, and Misconception

High pressure, common rail engines have been forced upon us due to emission legislation and agricultural engines and machinery have developed problems, sometimes at low machine hours, due to lacquering and carbonisation of the fuel and emission regulatory components. This problem causes misfire, uneven running, "lights" flashing and in extreme cases component failure.

So I'd like to cover briefly this subject, explain some background to the issue and offer some prevention tips and cures.

Fuel! At the moment this is the root of all evil to you. Speaking to members of the farming community, I have realised that many are under the misconception that what they are buying is merely road (white) diesel with a dye in it, but it's not. Red diesel is less refined, has a higher sulphur content (up to 1000 parts per million), has a lower cetane level and a higher moisture content. So what does this mean to you?

- High sulphur level causes carbonization.
- Low cetane level causes poor combustion, low performance.
- Moisture causes bacterial growth in fuel and oxidation, which causes lacquering of the system, a breakdown of the fuel when under extreme pressure. The fuel actually "shears", you can see the evidence of this when you remove a filter and find a dull sludge sat on the top of it. This is caused by bacterial growth.

So how can we prevent and cure this problem?

A clean, moisture and debris free supply, regularly changed is the most important start. But if you have an older tank, when it's low, remove it, clean it and fill with fresh fuel. Ordering a lower amount more regularly will result in cleaner, fresher moisture free fuel.

We can add an additive to the machine. This cleans, lubricates and helps to maintain the system. You may see this as additional cost but tests have proved that regular use results in a more efficient engine which uses less fuel and more than covers the cost of any additive. It also lowers the temperature at which your diesel will gel in cold weathers, and raises the cetane level.

And lastly – when we have reached the point where we have problems, what are the options? The biggest single cost if left unmaintained is that the injector nozzles will block due to carbon and lacquer. This could mean replacement of injectors, pumps and valves at huge cost. We now can offer an in situ injector cleaning service, this costs around £180-£200, including the cleaner, filter and labour. This de-lacquers the system, clears carbon deposits and in 95% of cases cures all faults and straight away you will see a noticeable improvement in the running and performance.

This is also done at half the cost, and at a scheduled time when you take out a maintenance contract.

Maintenance contracts are something we should all look at as the price is now far more viable than in previous years, and with escalating prices of everything these days it's nice to future price everything possible and know your fixed costs. Certainly something to consider, why not call us for some further info and quote S0410N to take advantage of discount.

Thanks for reading.

Mark Rothwell, Service Manager.
