LONELY HEARTS

SHROPSHIRE MODEL WANTS TO TRIM YOUR BUSH.

Due to my last owner upgrading me for a new model, I am seeking a new place to earn my keep. I have been kept undercover to protect my striking yellow livery.

I love being out amongst the hedgesides, flexing my long arm and 1.2m head.

McConnel PA550 Hedgecutter
£7850

Special Offer Price:

3m DMR £8,000 + vat
3m DCR £7,000 + vat

NEWSLETTER

STUART'S NEWS

WELL, we have made it half way through the year. Before you know it there will be talk about Christmas. I thought it would be a good opportunity to draw a line under the first half of the year and look forward to the next 6 months.

Although potatoes and grain have been challenging markets lately all the signs are there for an improvement. At the time of writing I am told spuds have lifted in price albeit for pukka samples.

The Pound has been doing some dancing against the Euro, which although gives me some mixed feelings on the whole is a good thing. From an equipment point of view, the strengthening of the £ v's the Euro will no doubt bring the long awaited stability of Tractors and machines built in the Euro zone.

Harvest is fast approaching us, in fact the first report of a combine in action came in this morning (5/7) from no other than Mike Kilbane!!!! – However, this was just north of Carlisle and he was on his way home from a wedding. So just how reliable this report is much depends on how much 'rusty water' he had consumed the night before!!!!!!!

It also seems a cert that both grass and straw will be both in demand and at a strong price this season, due to the lack of weight in the crops that are standing in the field. So, never one to miss an opportunity, this is the year to make sure you are fully geared up with all the kit needed for both baling and the remaining silaging. As usual we have plenty of stock in both depots and our sales team are always willing to come out and discuss your requirements.

To sum up, I think the next 6 months have the potential to make 2010 a good year for the farming industry, remember:-

Yesterday's history, tomorrow's a mystery, today's a gift.

Regards

Stuart

MERCHANDISE CATALOGUE AVAILABLE ON LINE

The John Deere 2010 Collection Catalogue contains an increased range of merchandise - all of it produced with the high level of quality you would expect from John Deere.

There is work and leisure clothing for men, ladies and children – everything from overalls, T shirts and caps to babygro's, braces and socks. For the younger John Deere fans there are scale models of everything on the farm as well as pedal tractors and trailers, go-karts and diggers. Ideal for gifts are items such as umbrellas, watches, cups, dog bowls, key rings and wallets.

To browse the 2010 John Deere Collection Catalogue on-line visit our websites

www.cornthwaiteag.co.uk or www.ag-mac.co.uk

There is a discount voucher available for download on the websites (expires 31 July 2010)

SERVICE OFFER

Powergard maintenance: fixed cost servicing with an introductory 10% discount (limited offer)

We now offer John Deere's flexible maintenance plans for your combine, SPFH and tractor range.

Each plan is designed to specifically meet your needs, your budget and your operating costs, while making "uptime farming" a reality.

We can tailor a plan to your specific requirement. There are various payment methods - depending on what is most convenient and affordable to you, you can pay for the entire contract in advance, in regular instalments or pay for services as they are performed.

Not only can we now offer you fixed cost servicing for a period of time but also you can benefit from an introductory 10% reduction (for a limited period only).

For more information please contact Rob Hughes, Andy Dobson or Chris Jacques for a no obligation quote.

ISLE OF MAN NEWS

This year we will have sales and service personnel at both the Southern District Agricultural Show at Great Meadow, Castletown on Saturday 30th July and Sunday 1st August and also at the Royal Manx Agricultural Show, at Staward Farm, Sulby on Friday 13th and Saturday 14th August.

We will have a large range of new and demonstration machines available to see at both shows along with John Deere lawn equipment/merchandise/toys/clothing etc.

If there is a particular, tractor/telehandler/machine that you would like to see at one of the shows please contact our sales team to see if we can have one available from our large stock of both new and demo equipment.

Agricultural Management Solutions (AMS) Price Reductions

Agricultural Management Solutions is a range of fully integrated equipment control and farm management tools. It enables you to control input and outputs with improved accuracy and helps you work more accurately, efficiently and profitably.

Earlier this season a significant reduction in the price of John Deere's AMS equipment was announced with reductions of up to 20% on some items. This is great news for customers with existing equipment who wish to upgrade, we may even be interested in part exchanging your current equipment – call to discuss your requirements.

For those wishing to get a foot on the AMS ladder, parallel tracking packages now start at just £1463.00 (exc vat) for a Starfire 300 Package with original Greenstar monitor and all harness. Or £2439.00 (exc vat) if upgraded to the jazzy new Greenstar 1800 monitor. Components are also easily upgradeable as you progress up the AMS ladder. Once you've used this stuff there's no going back and you'll begin to wonder why you ever worked without it.

Universal Auto Trac packages now start from just £5561.00 (exc vat) and for this you get a truly universal self steer package, easily moved between whatever machines you have, containing an ATU 200 steering adapter, original Greenstar monitor and Starfire ITC receiver with subscription free SF1 correction signal – again this is upgradeable with different monitors and screens.

We are looking into the possibility of us providing a hire service for AMS equipment - Universal Auto-Trac packages and Monitors/Receivers for any one with Auto-Trac ready tractors. If this is of any interest please get in touch with myself, Chris Jacques, 07881 461132 so that we can measure demand and if there is sufficient interest provide you with this service.

Chris Jacques takes new role as Group Customer Support Representative (CSR)

Chris Jacques, formerly one of our technicians from the Nantwich branch, and well known to many, will now officially take on the role of group Customer Support Representative. This role was previously carried out by Kevan Bretherton, but Kev's move to Branch Parts Manager at Bispham earlier this year meant we had an opening to fill and we are pleased to have Chris taking over where Kev left off.

Chris's all round product & industry knowledge makes him an ideal candidate for this role. His many years experience in agriculture, both operating equipment and as a technician have served him well and Chris was the first in the UK to achieve LTA3 Technician status.

As our CSR, Chris will be there to support all of our customers old and new, once they have taken delivery of any new piece of equipment. He will ensure your complete satisfaction with your purchase, equip you with the knowledge to use and maintain it, and ensure you have all necessary contact information for all departments of our business you may need in the future.

Chris, or CJ as he's also known, will continue with demonstrations, however these will be of the more specialist nature, mainly focusing on AMS kit, Forage Harvesters and Combines.

To add a new twist, Chris's role will see him become more directly involved in our Forage Harvester sales up front, as well as after sales support. He will work closely alongside our sales team when dealing with Forage Harvester enquiries and will be able to handle all aspects of a Forager sale himself from initial demonstration, right through to sale, delivery, and installation. His knowledge really is unrivalled here and our aim is to make it as available to you as we can. He's always willing to take your call and discuss Foragers, whatever type of machine you run and where ever you're up to in your replacement cycle.

Chris's Contact Details are: Office 01270 624141 Mobile 07881 461132 e-mail chrisj@agri-mach.co.uk
