LONELY HEARTS!

NICE CHOPPER!!!!

I may not look like all the rest,
But dont think of me as past my best,
A bit of experience in grass I've had,
My last owner said I never made him sad,
He upgraded me for a younger thing,
I long once again to be made to sing,
You may think I need some lippy and make-up,
But once were rolling we won't need to break-up,
So come in and view my slender physique,
And if you want me I'll be there within a week!!!!

HESSTON SELF PROPELLED FORAGER. OFFERS OVER £4000

SPECIAL PURCHASE

At the Paris SIMA show in February, McConnel launched their latest range of hedge cutters, and we were one of the first dealers to place stock orders for them. The first model to arrive with us in July was one of the new PA5570 machines, with the following features:

- 5.5m reach
- Three-point linkage mounting
 - Parallel arm geometry
 - Hydraulic safety breakaway
 - Full Power Slew
- 70hp High performance hydraulic system
 - Tapered, Seam welded arms
 - Hy-reach arm geometry
 - Storage support legs
 - High capacity oil cooler
 - Road lighting kit
- Operator friendly XTC joystick controls
 - 1.2m Flail head

These models are available right now at the Special Offer price of **£16,000 + vat**

SEPTEMBER 2011

NEWSLETTER

STUART'S NEWS

John Deere unveil new products in Lisbon

FOR all those that read my instalment in our previous newsletter, our sales team made it to Lisbon in Portugal to witness the launch of over 100 new products from John Deere.

The launch, set on a 68000 Hectare (yes Hectare) farm, saw the launch of the new 6R, 7R and 8R tractors, new combines, cabs, balers and also some revolutionary new Ag management solutions.

Named 'Setting Directions' the event highlighted the changes in the industry to prepare us as dealers to be able to serve our customers in what is becoming a truly high tech industry.

Now back from an inspiring launch, we have already sold a substantial amount of new 6R and 7R tractors and we now eagerly await the first deliveries into the UK.

Whilst we are focused on promoting the new 6R and 7R tractors, these models are only available in the high horse power segment, from 200hp upwards. Please be aware our 6030 series tractors (up to and including 6930) are still current factory build tractors and will be an integral part of our offering well into next year.

Although models above the 200hp mark have now been replaced with the new 'R' series, we managed to order some of the last 7530's and 7930's from the factory. We now have these tractors in stock and can supply them at really competitive prices. Call our sales team for more details.

ISLE OF MAN NEWS

Here is something that has not been seen on the island for many years!!

A full load of new John Deere tractors were on their way to our site at Squeen Farm. Overseeing the unloading were Dusty and one of our John Deere Area Service men.

As part of our continued commitment to the Isle of Man and our customers there, Dusty recently arranged for Dave Pollock from John Deere to spend time on the island visiting customers who currently have John Deere equipment plus a few that did not! This was a very good visit - one which we both agreed will happen again in the near future.

In July Dusty, Eddie and Matty were joined by Mathew Evans and Liz Berry to help out at the **Southern Agricultural Show**. This was the second time we have attended this show and it was a great success. We had a large display of both new and demonstration equipment which proved very popular along with a good selection of toys for our younger customers!

The weekend was made even better by winning the trophy for the best large agricultural stand. We would like to thank everybody who came to see us at the show.

Once again Dusty and Eddie attended the IOM Royal Manx Agricultural Show - this year from its new site at Patrick near PEEL. They were joined this time by Stuart Cornthwaite, Liz Berry, Chris Goff and Mathew Evans. We had a great show and even managed to have a new John Deere T550i Combine on our stand (the first time a new combine has been on a show stand on the island for several years!).

All the team worked incredibly hard to put on this event. We all love being involved with but, as with all of our events and shows on the Isle of Man, it would not be possible without the fantastic support and help from many of our customers, who allow us the use of their time and equipment. I am aware that we keep saying it but it is really appreciated and helps make the events what they are, so THANK YOU.

CHESHIRE PLOUGHING MATCH

Make a date in your diary for Wednesday 28th September to come along to the Cheshire Ploughing Match. This year it will be held at Flash House Farm, Barthomley, Crewe. As ever we will be having a large working plot alongside our static display, and would encourage as many of you as possible to try to get along as it really is one of the best working shows in the country. We will have working machines and representatives from all our major suppliers including Vaderstad, John Deere, Lemken, Reco, Manitou, Bailey, McConnel and many more. See you there!

NANTWICH SHOW

The sun shone brightly on Nantwich show this year and visitor numbers swelled to hit record levels. We enjoyed a great day meeting customers old and new, and showed them a huge selection of the equipment we stock, from many of our major manufacturer's.

As well as the big equipment on the stand, like the 510hp Self Propelled Forage Harvester, it was actually some of the smaller items that seemed to steal the show. The 55hp 2wd John Deere 5055E tractor and yard scraper drew lots of admirers as a really neat little package with its attractive price tag. Similarly, we had the new little Manitou MLT625 on show, another compact yet powerful performer that seemed to take the eye of many a passing farmer. As with previous shows, we sold Fella grass tedding and raking equipment off the stand and the day was topped off with first prize for the stand. A big thanks to all of you who came to see us on the day.

NEW STARTER

Please welcome a new member of our Support team

We are very pleased to announce that Tom Lawton has joined our experienced Service Team based at Nantwich. Tom came to us over two years ago on a two week work placement scheme from school. However Tom continued to pop in once a week and through-out the school holidays. On leaving school we are very happy that Tom is joining us as well as enrolling on a 3yr block release advanced apprenticeship at Reaseheath College. Upon completion Tom should gain a National Diploma in Agricultural Engineering and, along with the on the job training that he will receive, should give Tom the grounding to become an all round qualified technician and a valuable member of the team. Away from work Tom is a keen cricketer and plays for his local Cricket Club and enjoys clay pigeon shooting.

ADDITIONAL NSTS CERTIFIED TESTERS

We are pleased to announce that we have increased the numbers of our NSTS approved testers here at Bispham Green and Nantwich.

The National Sprayer Testing Scheme (NSTS) is a commitment made by the agricultural and horticultural industries to submit sprayers working in the UK to an annual inspection by a qualified person.

The Benefits Besides satisfying crop assurance and retailer protocols and showing commitment to the voluntary initiative, signing up to the NSTS also ensures maximum efficiency of your sprayer and helps to reduce costly downtime.

The Test we are able to carry out this inspection on **any make or model** of sprayer on farm or at either of our depots

Why not give your service team a call to arrange a test.

For more information follow this link to the www.nsts.org.uk

CAPTION COMPETITION

Meet Mathew - one of our Reps on his way home from the Southern Isle of Man Show.

Any captions to clairec@cornthwaiteag.co.uk and the winning one will be in our next newsletter
